

California State University Long Beach

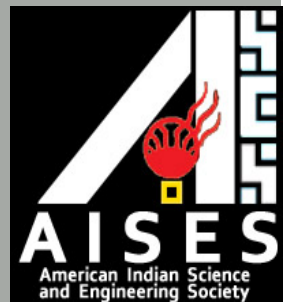

American Indian Science and Engineering Society

The project is a collaborative endeavor among the *Ti'At Society* and the Students of CSULB, as an exploration of an ancient canoe design in the present. Everyone is welcome to participate, please contact Vincent for further details.

Ti'At Restoration and Revitalization Project:

- We are transporting a Ti'At, or canoe, to CSULB for annual plank repairs.
- The students, *Ti'At society*, and community members will also work together to construct a new Ti'At for the students, which will join in the annual crossing to the Channel Islands off the coast of southern California.

Location:
CSULB College of Engineering
1250 Bellflower Blvd
