

Research Assistant Opportunity

What we do: The [Center for International Trade & Transportation \(CITT\)](#) is a “think-and-do” tank dedicated to conducting innovative research in workforce development and delivering community outreach in the area of goods movement. Our outreach programs include educational forums (e.g. State of the Trade and Transportation Town Hall), research conferences (e.g. the International Urban Freight Conference), and media-based efforts that engage the broader community in the discussion surrounding trade and transportation.

Role Summary: The Research Assistant will be responsible for providing research support on grant-funded projects and grant proposals. Our [research portfolio](#) covers a spectrum of salient topics such as sustainable freight workforce development, intelligent transportation, and waterway transportation infrastructure. In addition, the student assistant will support project leads through drafting and editing deliverables (e.g. white papers) and semi-annual reports. The position reports to the Director of Research and Workforce Development and assists the GIS and Data Manager as needed.

About the position:
