

# ψ Spring 2018 Colloquium

*the Department of Psychology presents...*

## Gender Ideologies and Sexism in Adolescence and Emerging Adulthood

**Campbell Leaper, Ph.D.**

**Professor and Chair**

**Psychology Department  
University of California, Santa Cruz**

**Abstract:** Professor Leaper will review his research program on the manifestations and consequences of sexism during childhood, adolescence, and emerging adulthood. His research group has investigated how sexist and non-sexist ideologies (such as feminist identity, traditional masculinity ideology, and benevolent sexism) and experiences with gender discrimination (sexual harassment and gender bias) are related to relationship qualities, academic motivation, and future aspirations in youth.
